**Subject:** NFB ERT Equipment

Good Afternoon Neil and Rich:

It appears when Weston packed the equipment for ERT, the 2241 Linc that was sent was the wrong piece. Can you please check for a Version 3 Linc so we can send Dave Kappelman the right equipment?

Thanks

Eric,

I checked the Viperized 2241 w/ the 3x3. We received a 2241 linc that is different than the one sent with the unit. The one sent with the unit was a Version 3 linc with the screw attachment cable, but we received a Version 2 Linc with the Push on Cable and it did not have a GPS antenna on the linc.

Dave

**Subject:** RE: Equipment

Sounds good. There wasn't a case specific to your 3030, right?

We should have two 3030's in the region ready for when we come back in a few months.

**Subject:** Re: Equipment

Just ship back the 3030 to me and I'll change the parameters once I get it.

Eric,

I understand that you still have the RSS-131 HPIC, one of us from Cincinnati will pick it up the next time we drive through Edison, NJ. I need to check the VIPER 2241 to see if the VIPER LINC came back with the equipment, but I think we have everything else back from R2.

**Subject:** Equipment

Good Afternoon:

How are you both?

I just wanted to recap the equipment we still have in Region 02 and what went back.

Dave, as far as I know, all equipment lent by you to the site went back to you with the exception of the HPIC. That is still in the Region 02 Equipment room correct?

Lyndsey, we still have your Ludlum 3030.

Is there anything else I forgot?

Thanks,

E
